## THIS IS A VALUABLE DOCUMENT - KEEP IN A SAFE PLACE

1. The following information is furnished to answer many of your questions concerning the statement of military service and the statutes applicable to retired pay.
2. The DA Form 5016 provides an annual listing of creditable military service through the previous retirement anniversary year. Soldiers may access their record at [www.hrc.army.mil](http://www.hrc.army.mil), under "My Record Portal", listed in the "Reserve Record" under "Retirement" to the "Point Detail" to view each type of USAR IDT duty and or Active duty earned since September 1994 to assist in verifying retirement points earned.
3. The DA Form 5016 should be reviewed annually. It should reflect all military service and breaks-in-service by anniversary year in each of the appropriate categories of IDT duty, correspondence, membership and active duty. AR 140-185, chapter 3 provides source documents authorized to award retirement points.
4. The sixty-point rule provides that no more than a combined total of sixty points may be credited for IDT, extension courses, and membership, in addition to any active duty points earned. Effective 23 September 1996, the sixty-point rule was replaced by the seventy-five point rule for Soldiers whose RYE fall on or after this date. On 30 October 2000, the seventy-five point rule was replaced by the ninety-point rule. Reserve Soldiers whose RYE falls on or after this date are entitled to a combined total of 90 retirement points for IDT, extension courses, and membership. Effective 30 October 2007, maximum points allowed increased to 130.
5. The retirement year is established by the date the member entered into active service or into active status in a Reserve Component. The start date (month and day) for each successive anniversary year will not be adjusted unless the member has a break-in-service. A break-in-service occurs only when a member transfers to an inactive status list, the inactive National Guard, a temporary disability retired list, the Retired Reserve or is discharged to civilian life for longer than 24 hours.
6. For members who completed the years of qualifying service before October 5, 1994, the last 8 years of qualifying service must have been in a component other than a regular component, the Fleet Reserve, or the Fleet Marine Corps Reserve. For members who completed the years of qualifying service on or after October 5, 1994 but before April 25, 2005, the last 6 years of qualifying service must have been in a component other than a regular component, the Fleet Reserve, or the Fleet Marine Corps Reserve. For members who completed the qualifying service on or after April 25, 2005, there is no minimum Reserve component service requirement.
7. A member of the Ready Reserve who serves on active duty or performs active service described in 10 USC 12731 after January 28, 2008 may qualify for a reduced retirement age.
